Getting started

Let's start to discover how to
use Strapi in real life.

Before you go any further, there are some
requirements to make sure the

installation works. Ensure these technologies are installed on your computer.

-  [Node.js](#) [at least v9.0.0](#) [I don't have Node.js](#)
-  [npm](#) [at least v5.0.0](#) [I don't have npm](#)
-  [MongoDB](#) [at least v3.4](#) [I don't have MongoDB](#)
